

PRODUCTS FOR HEALTHY EYES

For Puffiness...

Eye puffiness is caused by the accumulation of excess fluid below the eye, so you'll want to look for products with anti-inflammatory compounds to reduce irritation. This lightweight eye cream is chock full of non-irritating, refreshing organic superfruits like pomegranate, acai, and goji berry. It's also non-greasy and absorbent—perfect for the delicate peri-orbital skin.

ACURE Superfruit + Chlorella Eye Cream

18.99 for .5 oz.
Where to Buy It: Whole Foods Market
wholefoodsmarket.com

For Dark Circles...

With age, the skin around the eye thins, exposing the tiny blood vessels that lie just below. This gentle, lightening serum includes Regu@Age, to improve skin strength and elasticity, and hyaluronic acid, for skin lubrication. Just put a pea-sized amount of the clear serum on your finger, and apply to the skin underneath your eyes. You'll notice a difference in coloration in up to 30 days.

Episilk Dark Circle Lightening Serum

39.95 for 1 oz.
Where to Get It: Nutrition World
nutritionw.com

For Wrinkles/Fine Lines...

Fine lines and wrinkles appear when skin becomes thinner, drier, and less elastic as we grow older. This anti-wrinkle serum is a great product for firming up the under eye area. Its peptide blend leaves skin feeling tighter and healthier, improving the appearance of fine lines and wrinkles within a few weeks. The serum absorbs quickly, and its scent is sweet and flowery.

MyChelle NOTOX Anti-Wrinkle Serum

57.29 for 1 oz.
